

Shanhaiguan Shipbuilding Industry Co. Ltd.

Shanhaiguan Shipbuilding Industry Co., Ltd., was established in 1972, as a state-owned A-grade enterprise of China Shipbuilding Industry Corporation (C.S.I.C.). It is one of the biggest ship-repair and shipbuilding yards in China. The yard covers 2,160,000 square meters, including a land area of 1,360,000 square meters and a water area of 800,000 square meters. SHGSIC. operates six graving docks, 9 quays of 2,018m in total, fabrication and outfitting fields of 26,710 square meters, with 900 professional and experienced engineers and technicians. SHGSIC. has repaired or converted tankers, rigs, bulk carriers, general cargo ships, Ro-Ro ships, container carriers, reefer ships, ore carriers, floating cranes, rescue ships, supply ships, harbor vessels, chemical tankers, special vessels and all other vessels and offshore facilities. The shipyard has successfully built and delivered 35.000 D.W.T. submersible barges, a turbine installation vessel, 30.000 D.W.T. Bulk Carriers in series, a 70,000 TLC floating dock and 2600 TEU Container Carriers, and plans to construct a shipbuilding base with an annual delivery of 1 million D.W.T. in cooperation with Hebei Provincial Government and C.S.I.C..

Facilities

NAME	DRY DOCK TYPE	LENGTH (M)	WIDTH (M)	DEPTH (M)	LIFTING CAPACITY (L.T.)	DEADWEIGHT CAPACITY (UP TO)	CRANAGE (T)
